Hey kids, become a FOOD EXPLORER and check out this Month’s Discovery...

Bananas

Did you know...?
- Bananas grow in hot, tropical countries. Massachusetts is too cold.
- Bananas were a new treat at our country’s 100th birthday party. They were wrapped in foil and sold with instructions for eating them.
- Bananas come in many colors -- yellow, purple and red.
- A bunch of bananas is called a “hand” and each banana is called a “finger.”
- The banana plant is not really a tree. It is a giant herb that grows up to 30 feet tall.

DELICIOUS AND NUTRITIOUS
Bananas have a nutrient that helps our hearts pump our blood everywhere we need it.

A SUPER SNACK IDEA
Make a banana pop. Peel your banana, put it on a popsicle stick, and freeze it.

BANANA HUMOR
Why are bananas never lonely? Because they hang around in bunches!
